Special Connectors

A number of KILOVAC relays are available with special, anti-corona high voltage connectors. Refer to the chart to determine if high voltage connectors are available for your model relay. These connectors can be ordered separately, by part number, or at the same time you order your relays (for "H: relays only) by simply adding the letter "C" to the part number. For instance, if you wish to purchase an H-8 relay with special connectors, you should order an "H-8C". If you already have an H-8, you can order three Part Number 0510 connectors and install them yourself by removing the standard solder lugs and carefully installing the connectors so as not to damage the glass-to-metal seals.

Optional High Voltage Connectors

Relay Model	Connector Part Number	
H-8 H-14 H-16 H-19 H-26	0510	H-17 H-23 H-24	1886	EV250-1A EV250-1B EV250-2A EV250-2B EV250-8A EV250-8B	2005	
EV250-5A	2625	KC-2, KC-8 KC-11, KC-12 KC-15, KC-16 KC-14, KC-18	6822	
Connectors for EV250-1A, 1B, 2A & 2B

TE supplies a connector with 7 leads attached. Order Part Number 2005, Part Number 1618004-1.

For factory-direct application assistance, dial 800-253-4560, ext. 2055, or 805-220-2055.
